

Discovering Gifts and Developing Leadership Skills

Student Convention Timeline – Steps to Success
 (Some A.C.E. links temporarily disabled ([blue underlined](#)) as new web site is being updated) – [Green underlined](#) links are currently active.

SECURE INFORMATION in a three-ring binder for easy access:

1. Print this document for reference and place in the front of your notebook
2. Click on [Convention](#), scroll to desired location & download **flyer** for detailed info
3. Select the link for guidelines or download them [here](#) and print each section
4. Refer to TIPS FOR GETTING STARTED IN STUDENT CONVENTION [here](#) or select “First Timers” under Tips on the Guidelines page

SELECT EVENTS balancing individual development with team (school) needs:

1. Give students a copy of the event list (CF13) from the [forms](#) section
2. Provide a copy of [HOW TO PREPARE](#) (page vii of the Complete Guidelines TOC)
3. Print or copy rules and judging criteria for each individual by event selected and have them maintain a personal convention preparation notebook or folder
4. Print judges form as reference to evaluation breakdown for each – use as part of your preparation criteria

This is a good point in time to have students **begin early entries** (*Essay Writing, Poetry Writing, Short Story Writing, Web Site Design, PowerPoint Presentation, Music Composition, Music Arranging, Radio Program, Scripture Video, and A.C.E. Character Trait Video*) **as well as any selected arts and exhibits events.** Doing these events early allows for more time closer to actual competition to hone performance events. Refer to [TIPS FOR WRITTEN ENTRIES](#) for assistance

You may want to consider fundraising options during this time for both the regional and international convention as applicable. See [FUNDRAISING IDEAS FOR STUDENT CONVENTION](#)

COMPLETE PROJECTS and begin working on performances:

1. Finalize necessary paperwork for projects as able (refer to guidelines)
2. Begin memory work and practice on performance selections. You may wish to refer students to the [Student Preparation Handbook](#) for tracking purposes if you are issuing elective credit.
3. Refer to [HOW TO PREPARE](#) (you will need to scroll to page vii)
4. Constantly evaluate in light of the guidelines and judging forms

This is an excellent time to complete **permission forms** and get **signatures from parents** on the participation release CF6 and health care form CF8 along with the school screening form CF16 all completed and placed in your planning & preparation notebook ([Forms section pages 6-10](#)). It helps avoid a major rush later – if not needed they can be discarded.
